G Known, Suspected or Likely Releases to the Environment:

Place an X in the appropriate boxes to indicate any known, suspected, or likely releases of wastes to the environment.

☐ Known ☐ Suspected ☐ Likely ☒ None

No visible releases to the environment.

Note: Items Hand I are optional. Completing these items will assist EPA and State and local governments in locating and assessing hazardous waste sites. Although completing the items is not required, you are encouraged to do so.

H Sketch Map of Site Location: (Optional)

Sketch a map showing streets, highways, routes or other prominent landmarks near the site. Place an X on the map to indicate the site location. Draw an arrow showing the direction north. You may substitute a publishing map showing the site location.

See Attached

I Description of Site: (Optional)

Describe the history and present conditions of the site. Give directions to the site and describe any nearby wells, springs, lakes, or housing. Include such information as how waste was disposed and where the waste came from. Provide any other information or comments which may help describe the site conditions.

The site is an oil refinery that is presently in operation. The facility is located on the East bank of the Schuylkill River. Any waste that was disposed of at the refinery was generated at this facility. Leaded tank bottoms were spread on top of the ground throughout the tank fields to facilitate the process of weathering, which was the industry accepted process for disposal.

J Signature and Title:

The person or authorized representative (such as plant managers, superintendents, trustees or attorneys) of persons required to notify must sign the form and provide a mailing address (if different than address in item A). For other persons providing notification, the signature is optional. Check the boxes which best describe the relationship to the site of the person required to notify. If you are not required to notify check "Other".

Gentlemen:

Please find attached the forms for Notification of Hazardous Waste Sites for Gulf Oil Corporation's Philadelphia Refinery, Schuylkill River Tank Farm, Darby Creek Tank Farm and City of Philadelphia Municipal Landfill as required under Section 103(C) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980.

It should be noted that due to the nature of the petroleum industry and the length of operational service of this particular refinery it is possible to have some degree of lead and chromium contamination throughout the facilities.

If any additional information is required, please contact J. H. Williams, Director-Process Engineering at (215)339-7125.

Very truly yours,

F. A. Becker
